

Census Toolkit for Business Owners in California

The Census Is Important for Business Growth

The information collected by the census every 10 years from everyone living in the U.S. provides businesses with the most comprehensive, reliable, free source of data about residents in the country available. Census data informs your decisions about potential employees, customers, and markets.

Take a look at how companies use census data to enhance their business here: [census.gov/target](https://www.census.gov/target).

How Can Your Business Help?

Use this toolkit to promote the census from now until May and encourage your employees and customers to complete their census questionnaires early in March and April 2020.

This toolkit includes:

1. Draft language for written communication to employees
2. Talking points for a staff event or meeting
3. Links to social media graphics
4. A link to a flyer that can be posted in a break room, storefront or near a cash register

Want additional local resources for specific demographic groups? Contact your [local complete count committee](#) or visit strongnation.org/CAcensus.

Key Dates and Action Plan for 2020

January-February: Use your talking points at staff meetings to draw attention to the census.

March-April: Invitations to complete the 2020 Census online will be mailed. This is the prime time to promote and encourage your employees and customers to complete their questionnaire.

April 1: National Census Day! Join the group effort by hosting a lunchtime event for your employees and promoting the census on social media.

Don't forget to use the hashtags:

#2020Census

#BeCounted

#CaliforniaForAll

Getting Everyone Counted = \$\$\$ for Your Customers, Employees, and Community

An accurate Census count helps drive our economy by helping to allocate billions of dollars in federal money. Each person counted in the 2020 Census means more money for critical services like:

- Schools
- Workforce Development
- Roads
- Public Transportation

Talking Points for Employee Gathering

The talking points below provide essential information about the 2020 Census and why it is important that everyone in California participates. Please make them your own and modify them to fit your employees.

What is the 2020 census?

- The U.S. Constitution calls on the federal government to conduct a basic count of all residents living in the country every 10 years. The next population count is this year (2020).
- The census questionnaire is short (9 questions), takes an average of 10 minutes to complete, and only asks for basic information (e.g., age, sex, race, type of housing, etc.) from all people regularly sharing your address. It does not ask for sensitive information like social security numbers, immigration status or bank account information.

The census helps to improve California

Information from the 2020 Census will help to distribute billions of dollars in federal resources. Every year, California gets billions based on census information that helps pay for schools, roads, police, fire, health care and many more services. An undercount in California would jeopardize our full share of these resources.

How can someone complete their questionnaire?

For the first time, residents can complete their forms online, but doing so by phone or mailing in a paper questionnaire are still options. Go to californiacensus.org for more information and to complete your questionnaire starting in March 2020. If you don't respond by the end of April, a census worker may visit your home.

Is it safe and private?

Federal law prohibits the Census Bureau from sharing individual census information with any person, organization or government body, including law enforcement. All census staff take a lifetime oath to protect personal information, with up to \$250,000 in fines and/or up to 5 years of jail time for violations.

Encourage others

Once you complete your questionnaire, please encourage your family and friends to do the same.

Language for Employee Email or Newsletter

The language below is designed to be copied directly into an employee email, newsletter or other communication. Feel free to modify, as needed.

Potential Email Subject/Title: Have a Say in California's Future, Participate in the 2020 Census

Dear [Insert name]:

I am reaching out today to encourage you to participate in the 2020 Census. If you have already completed the short questionnaire, thank you, and please encourage your family and friends to do the same! This short activity is truly important for strengthening communities and families in California and it only takes a few minutes.

Each year, California receives billions in public funding for important community services like schools, police, fire, health care, roads and much more. However, if there is an undercount in California, we may not get our full share of these resources.

It is important to count everyone living with you on your census questionnaire, no matter their age or citizenship status. If they regularly share your address, they count.

You can complete the questionnaire online, by mail or over the phone. It is safe and private. In fact, federal law prohibits anyone at the Census Bureau from sharing personal census information, with violations resulting in stiff penalties and jail time. The questionnaire is short and only asks for basic information (e.g., age, sex, race, type of housing, etc.) for all people living in your household. It does not ask for sensitive information like social security numbers, immigration status or bank account information. Thank you for your kind consideration, and learn more at www.californiacensus.org.

Sincerely,

[Insert name]
